Barrel of Lies

(Lyrics & music – Jonas Ekestubbe)

What I know
is that you couldn't keep your promises
Isn't so
if it is you'll feel the loneliness
What you want
is ecstasy of authority
Oh no!
hope the people curse supremacy

I hope you've written your speech like it was meant to be cause

This is the time and the place for all the people to see
that you no longer are the one you used to be
This is the time and last chance for you to stand up tall
speak your mind, prove your thing you may convince us all
to put our votes in your barrel of lies

What you should
Is to confess that you're a big mistake
What you need
is to apologize for heaven sake
What you do
I see you do for popularity
What you could is show more ethical maturity

I hope you've written your speech like it was meant to be cause

This is the time and the place for all the people to see
that you no longer are the one you used to be
This is the time and last chance for you to stand up tall
speak your mind, prove your thing you may convince us all
to put our votes in your barrel of lies

I hope you've written your speech like it was meant to be cause

This is the time and the place for all the people to see
that you no longer are the one you used to be
This is the time and last chance for you to stand up tall
speak your mind, prove your thing you may convince us all
to put our votes in your barrel of lies

The Birth of My Child

(Lyrics & music – Jonas Ekestubbe)

If you just wait and see
then I will let you know why I smile
Why can't you see what I see
you're hesitating likewise like me
Slow me down it feels as I'm lost
Won't you bring me in whatever the cost

*The birth of my child
has brought my thoughts high in the sky
There's no need to hide
when it feels as I've gained a part of your heart
The birth of my child*

I wish I could tell how I feel
but I'm hesitating likewise like you
I just wanna feel free like her
but my thoughts still dwell upon thou who I love
Slow me down it feels as I'm lost
Won't you bring me in whatever the cost

*The birth of my child
has brought my thoughts high in the sky
There's no need to hide
when it feels as I've gained a part of your heart
The birth of my child
has filled that perished void in my heart
There's no need to hide
it feels like my callow mind has matured
The birth of my child*

Save me my jaded heart can't take it no more
Won't you fill with the love that I adore
I'm feeling a comfort in your voice
It's leaving me hopefully without choice

Come Back

(Lyrics – Maria Bemark; Music – Jonas Ekestubbe/Maria Bemark)

I wish that I could help her, cause I can read her pain between the lines
Maybe it's true that you love her, but you've chosen the bottle instead of her
to many times
You let her down again, you broke her down again
Why can't you realize what you do?
You made her cry again, you put a stone in her heart again
Cause it has control over you

Come back, don't leave

She's missing the one you once were
So get yourself together
Is there still hope for you to come back?
Is there still hope for you not to leave?

I wish that I could help her, cause I can read her pain between the lines
Maybe it's true that you love her, but you've chosen the bottle instead of her
to many times
You let her down again, you broke her down again
Why can't you realize what you do?
You made her cry again, you put a stone in her heart again
Cause it has control over you

Come back, don't leave

She's missing the one you once were
So get yourself together
Is there still hope for you to come back?
Is there still hope for you not to leave?

(Instrumental.)

Come back, don't leave

She's missing the one you once were
So get yourself together
Is there still hope for you to come back?
Is there still hope for you not to leave?
She's missing the one you once were
So get yourself together
Is there still hope for you to come back?
Is there still hope for you not to leave?

Crown my own throne

(Lyrics & music – Jonas Ekestubbe)

Hey, look at you so pale when the sun don't shine, yeah!
Hey, look at me so bright and always clean, yeah!
Hey, hey, hey would you please turn on the light
Hey, hey, hey you're so pale I'm shining bright

*I'm shining bright
It seems you're not reflecting light
Wash your sins away and expose your heart
To become what you were is to see who you are*

Hey, look at you so fine you're turning bright, yeah!
but Hey, look at me a disgrace I'm coloured blind, yeah!
Hey, hey, hey would you please turn off the light
Hey, hey, hey you're so fine I'm turning blind

*You're shining bright
I can not even see the light
The sins of your was really my own
Feels like I'm rejected to crown my own throne*

Fading away
There's no place for me to stay
I can feel no more pain
I guess I did it all in vain

Do It With Me

(Lyrics & music – Jonas Ekestubbe)

You place your arms around me, you embrace me
You put your left hand on my cheek, you caress me
You start to slowly undress me, Ifm feeling cold
You got that look like you'd never stop, Ifm feeling old

*Like a child, with that look in your eyes
Some time alone, never gonna do as you're told*

You start to slowly distract me, you possess me
You put your both hands on my neck, you suppress me
You make me feel like I hesitate, to make you smile
You got that look like you wanna dance, at least for a while

*Like a child, with that look in your eyes
Some time alone, never gonna do as you're told*

I love what you are, if you just smile once in a while
and I love what you do, if you do it with me, Do it with me

You place your arms around me, you embrace me
You put your left hand on my cheek, you caress me
You start to slowly undress me, Ifm feeling cold
You got that look like you'd never stop, Ifm feeling old

*Like a child, with that look in your eyes
Some time alone, never gonna do as you're told*

I love what you are, if you just smile once in a while
and I love what you do, if you do it with me
I love what you are, if you just smile once in a while
and I love what you do, if you do it with me, Do it with me

I feel I need some time alone, although you know me I feel unknown
As a child I've been torn away, would you please stop to proceed leading me astray

I love what you are, if you just smile once in a while
and I love what you do, if you do it with me
I love what you are, if you just smile once in a while
and I love what you do, if you do it with me, Do it with me

Down With Pain

(Lyrics – Andreas From; Music – Jonas Ekestubbe/Andreas From)

Strolling along the lakeside
this feeling of insufficiency
forces me to sit down, to think

What good could possibly come out of this
What good could possibly come out of this

Down with pain
I ought to cry but I don't know how just now
Down with pain
I ought to cry but I don't know how just now

Kickin' some pebbles a few feet
hands down my pockets, head low
nature sparkling by my side

What good could possibly come out of this
What good could possibly come out of this

Down with pain
I ought to cry but I don't know how just now
Down with pain
I ought to cry but I don't know how just now

What good could possibly come out of this
What good could possibly come out of this

Down with pain
I ought to cry but I don't know how just now
Down with pain
I ought to cry but I don't know how,
I don't know how, I don't know how just now
Down with pain
I ought to cry but I don't know how just now
Down with pain
I ought to cry but I don't know how just now

Fade These Words Away

(Lyrics & music – Jonas Ekestubbe)

Animate my childish dreams
It's never too late no matter how it seems
Please endure I won't tell no lies
Free your mind with your clairvoyant eyes
Teach me what I need to find
Indoctrinate my own omniscient mind
Stimulate my indulgent heart
Concentrate before it's gone too far

Liberate, Celebrate and Animate

Sightless, Brightless fade these words away
Sightless, Brightless fade my tears away

Celebrate my childish mind
Maybe it's too late no matter what you find
Please feel the entourage rise
Euphoria for your poor famished eyes
Simulate to try and break free
Insulate so that your heart can't see
Fabricate an extrinsic face
Intolerate before it turns to haze

Liberate, Celebrate and Animate

Sightless, Brightless fade these words away
Sightless, Brightless fade my tears away

The voice of your heart
Sounds condescending to me
Jaded from the start
Just wanna feel free

Sightless, Brightless fade these words away
Sightless, Brightless fade my tears away
Sightless, Brightless fade these words away
Sightless, Brightless fade my tears away

Finally

(Lyrics – Maria Bemark; Music – Jonas Ekestubbe/Maria Bemark)

All about you, All about you
It's always been all about you so now we are through
What about me?, What about me?
Well you are losing something good here that's what you're gonna see
And I'll do so much better, I'll do so much better on my own

So just leave now
Bye, bye

Always so sure, You were always so sure
That I would go where you went but it's not like that anymore
It's not fair, It just isn't fair
You don't know any of my friends because you just didn't care
And I'll do so much better, I'll do so much better on my own

So just leave
Bye, bye

Finally, I'm ending this I've realized that you're no good for me
Finally, I should have left you long long time ago cause you're no good for me

This is the end, This is the end
We were once the best team but I can no longer pretend
That it still good, It isn't still good
And I have understood that
I'll be so much better, I'll be so much better on my own

So just leave
Bye, bye

Finally, I'm ending this I've realized that you're no good for me
Finally, I should have left you long long time ago cause you're no good for me

Finally, I'm ending this I've realized that you're no good for me
Finally, I should have left you long long time ago cause you're no good for me
Finally, I'm ending this I've realized that you're no good for me
Finally, I should have left you long long time ago cause you're no good for me

Friends?

(Lyrics – Maria Bemark; Music – Jonas Ekestubbe/Maria Bemark)

Following your every move
Wondering what it would have been like to be with you
Hoping for you to see that I need you so bad
Grieving the loss of something I never had

*Why was this wall built up between us?
When did the magic go?
Can't remember when I last reached you
Or when I let you come close*

I'm realizing that I'm losing you
I'm realizing that you're gone
What could have been the chance of a lifetime
Turned out to be not that strong

Save our friendship was what I thought I'd do
When I didn't follow the feelings I had for you
Fading, all we had is fading away
Grieving the closeness I hoped would always stay

*When was this wall built up between us?
When did the magic go?
Can't remember when I last reached you
Or when I let you come close*

I'm realizing that I'm losing you
I'm realizing that you're gone
What could have been the chance of a lifetime
Turned out to be not that strong

Although friends come and go
You'll always be special so
Please remember what we had you and me
And I'll try forget what I know we could be

Give Me A Chance

(Lyrics & music – Jonas Ekestubbe)

Give me one reason to stay
Give me one reason for not going away
Give me one reason to feel
Give me one reason to feel this way again

*Give me a chance to try to explain myself
Give me a sign so you won't do it by yourself
Give me a chance to try to explain myself
Give me a sign so you won't do it by yourself*

Give me a chance, Give me a sign, Give me your love
Give me a chance, Give me a sign, Give me your love

Give me one reason to share
Give me one reason to share this love again
Give me one reason to give
Give me one reason to make me wanna live

*Give me a chance to try to explain myself
Give me a sign so you won't do it by yourself
Give me a chance to try to explain myself
Give me a sign so you won't do it by yourself*

Give me a chance, Give me a sign, Give me your love
Give me a chance, Give me a sign, Give me your love

(Instrumental.)

*Give me a chance to try to explain myself
Give me a sign so you won't do it by yourself
Give me a chance to try to explain myself
Give me a sign so you won't do it by yourself*

Give me a chance, Give me a sign, Give me your love
Give me a chance, Give me a sign, Give me your love
Give me a chance, Give me a sign, Give me your love
Give me a chance, Give me a sign, Give me your love

I Hope You Can Feel It

(Lyrics & music – Jonas Ekestubbe)

If I could be with you then I wouldn't have to feel so alone
I want to be with you but I guess it's already shown

*So I don't mind telling you lies that you haven't heard before
No I don't mind telling you lies that you haven't heard before*

If I could lie to you then I wouldn't have to feel so ashamed
If I could lie to you I guess things will just be the same

*So I don't mind telling you lies that you haven't heard before
No I don't mind telling you lies that you haven't heard before*

I think the truth is what you feel inside
I hope you can feel it
I think the truth is what you feel inside
I hope you can feel it

I think the truth is what you feel inside
I hope you can feel it
I think the truth is what you feel inside
I hope you can feel it

I Look in the Mirror

(Lyrics & music - Jonas Ekestubbe)

Imagine all the pain you feel inside had suddenly disappeared
Imagine all the friends that you've ever had
had suddenly moved away cause you're weared
I don't know what you've been told
and I don't know what you've seen, but at least I know where you've been

This thing is really getting in to my head

I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see, I guess I see what I wanted you to see

Imagine all the things you had as a child had suddenly disappeared
Imagine all the friends that you've ever had
had suddenly moved away cause you're weared
I don't know what you've been told
and I don't know what you've seen, but at least I know where you've been

This thing is really getting in to my head

I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see, I guess I see what I wanted you to see

I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see
I, you, love, me, not, kill, hate
I look in the mirror and guess what I see, I guess I see what I wanted you to see

I Wish That I Could Make You See

(Lyrics & music – Jonas Ekestubbe)

Subconscious feeling
That look in your eyes
You make me see
All of your hidden lies
The things that you hide didn't come as surprise
The look in your eyes revealed all of your lies
Don't think you can hide behind your fake disguise
The things that you hide is in the look of your eyes
Slowly, things will come clear, things will come clear but slowly

I wish that I could make you see

See things as they are to be seen
Tell things as they are to be told
Think things as they are to be thought
I wish that I could make you see how things really are

The things that you hide didn't come as surprise
The look in your eyes revealed all of your lies
Don't think you can hide behind your fake disguise
The things that you hide is in the look of your eyes
Slowly, things will come clear, things will come clear but slowly

I wish that I could make you see

See things as they are to be seen
Tell things as they are to be told
Think things as they are to be thought
I wish that I could make you see how things really are

I wish that I could make you see

See things as they are to be seen
Tell things as they are to be told
Think things as they are to be thought
I wish that I could make you see how things really are
See things as they are to be seen
Tell things as they are to be told
Think things as they are to be thought
I wish that I could make you see how things really are

It Would Seem So Real

(Lyrics & music – Jonas Ekestubbe)

I've never been so close before this time
I can touch your heart I'll discover your inside
I don't wanna waste my life now
with this endless search I hope you do fill my needs
I never wanna feel so afraid again
as I did that day when I discovered your outside
I only wanna fill this life of mine
with the love you give and with the things that you say

I never really had to think about
what you might would've said cause I know what you did
You said you wanna tell me your everything
you wanna share me it all you wanna show me you inside
I don't wanna feel like I hesitate
to get to know your heart I wanna explore your hole mind
But I don't wanna look back and think again
what would've been when I know just how I feel

It seems to me that the only affection
That I can get from you
Is if i could touch your mind and caress your heart
It would seem so real
It would seem so real It would seem so real
It would seem so real
It would seem so real so real

Lights

(Lyrics & music – Jonas Ekestubbe)

Your silent tears still whispers every night in my ears
With your gentle palm, you caress me and make me feel calm
Every little thing you've said to me
You tried so hard to make me see
Your silent tears still whispers every night in my ears
With your gentle palm, you caress me and make me feel calm
Every time you feel like touching my heart
Please tell me so that I know from the start

*I think I'm gonna take this love of mine and put it in your heart
And I think I'm gonna take those tears of yours and put them back in your eyes*

Your beating heart still whispers every night in my dream
In your gentle care I always would feel as it would seem
Every little thing you've said to heal
Trying so hard to make me feel
Your beating heart still whispers every night in my dream
In your gentle care I always would feel as it would seem
Every time you feel like caressing my mind
Please tell me and I show you what to find

*I think I'm gonna take this love of mine and put it in your heart
And I think I'm gonna take those tears of yours and put them back in your eyes*

Lights, light that blinds me to see what you give
Lights, light that blinds me to see when you smile

I'm dying but trying to see why you're painting
a stone as your heart when it's still alive
Not knowing or caring why your tears keep on falling
there's a stone in your heart but it's still alive

*I think I'm gonna take this love of mine and put it in your heart
And I think I'm gonna take those tears of yours and put them back in your eyes*

Lights, light that blinds me to see what you give
Lights, light that blinds me to see when you smile
Lights, light that blinds me to see what you give
Lights, light that blinds me to see when you smile

Loser

(Lyrics & music - Jonas Ekestubbe)

Sunshine the beams are crashing through my window as the
Morning takes its time the fresh air breathes through my
Senses feeling fine but I do not believe I
Know you please tell me your name and I'll tell you mine

New face the air refresh my mind to see things a little bit
Clearly cause my perspective tends to narrow as I
Forget who I am and who you are that I stand so
Close to please tell me your name and I'll tell you mine

Loser, loser that is what you are
That is what I think you think of me
Loser, loser that is what you are
That is what I think you think of me

Sunshine the beams are crashing through my window as the
Morning takes its time the fresh air breathes through my
Senses feeling fine but I do not believe I
Know you please tell me your name and I'll tell you mine

Loser, loser that is what you are
That is what I think you think of me
Loser, loser that is what you are
That is what I think you think of me

Loser, loser that is what you are
That is what I think you think of me
Loser, loser that is what you are
That is what I think you what I think you you think of me baby
Loser, loser that is what you are
That is what I think you think of me
Loser, loser that is what you are
That is what I think you think of me

Loving You

(Lyrics & music – Jonas Ekestubbe)

Time will slowly bring us back together once again
I know now that I've hurt you but I'll try to make a mend
The things I said were never meant to cause you any pain
I hope someday your heart will heal and your love I will regain

*Time will slowly bring us back together again
I know now that I've hurt you but I'll try to make a mend*

Cause, Loving you is everything, Loving you means everything
Loving you gives everything, Loving you is everything
Loving you means everything to me

I tried so hard to find out what it was that went so wrong
I know that can't live without you **BABY** for to long
Every day I think about you **BABY** you're so fine
Although we can not be as one you'll be forever mine

*Time will slowly bring us back together again
I know now that I've hurt you but I'll try to make a mend*

Cause, Loving you is everything, Loving you means everything
Loving you gives everything, Loving you is everything
Loving you means everything to me

Time will slowly bring us back together once again
I know now that I've hurt you but I'll try to make a mend
The things I said were never meant to cause you any pain
I hope someday your heart will heal and your love I will regain

*Time will slowly bring us back together again
I know now that I've hurt you but I'll try to make a mend*

Cause, Loving you is everything, Loving you means everything
Loving you gives everything, Loving you is everything
Loving you is everything, Loving you means everything
Loving you gives everything, Loving you is everything
Loving you means everything to me

On Top Of The World

(Lyrics & music – Jonas Ekestubbe)

On top of the world, wanna climb a little more
But I don't know what I wanna find
I can show you the way, there's a pathway leading there
But I don't know what it will bring to you

*I feel disquiet in your voice
You think you don't have any choice
I love the beauty that you possess*

Sing, Sing, Sing, Sing,
Sing, Sing, Sing, Sing, with me
Sing, Sing, Sing, Sing, yeah!

Said you're afraid of heights, that was a long time before
But you're not scared now anymore
If I'm still alive you say, If I'm still around
But I don't know what it will bring to you

*I feel disquiet in your voice
You think you don't have any choice
I love the beauty that you possess*

Sing, Sing, Sing, Sing,
Sing, Sing, Sing, Sing, with me
Sing, Sing, Sing, Sing, yeah!

(Instrumental.)

*I feel disquiet in your voice
You think you don't have any choice
I love the beauty that you possess*

Sing, Sing, Sing, Sing,
Sing, Sing, Sing, Sing, with me
Sing, Sing, Sing, Sing, yeah!
Sing, Sing, Sing, Sing,
Sing, Sing, Sing, Sing, with me
Sing, Sing, Sing, Sing, yeah!

Please Feel Free

(Lyrics & music – Jonas Ekestubbe)

How was I suppose to know, you never told me anything
How was I suppose learn, when you had enough
How was I supposed to see, you never showed me anything
How was I suppose to know, when you gave it up

*I feel like I've lost my strength
So why don't you*

Please feel free to do what you please
Please feel free to do what you please
Please feel free to do what you please
Do what you please

How was I suppose to feel, you never gave me anything
How was I suppose to think, when you told me not to
How was I suppose to love, you never gave me any chance
How was I suppose to laugh, when all my feeling's gone

*I feel like I've lost my strength
So why don't you*

Please feel free to do what you please
Please feel free to do what you please
Please feel free to do what you please
Do what you please

So why don't you*

Please feel free to do what you please
Please feel free to do what you please

Things That You Whisper

(Lyrics & music - Jonas Ekestubbe)

The things that you whispered still echos inside of my head
Maybe I'll take time to think about it before I'm dead
The words of wisdom you spoke still hurts me inside
Maybe I'll just take it with me to the other side

The pain that you've caused me has simply left me without choice
Leaving this place hopefully I'll stop hearing your voice
Maybe I'll find what you said was to good to be true
But I won't give in to your thoughts I will find something new

Finding this world to small for our big mouths to feed
This constant problem probably lies in our greed
No ethical feelings you don't even see that I bleed
No you only worry about how you'll surely succeed

This Was Meant To Be

(Lyrics – Maria Bemark; Music – Jonas Ekestubbe)

I am falling I'm falling for you
This seems to be too good to be true
You've been around now for some time
But I never knew that you could be mine

I am falling I'm falling for you
This seems to be too good to be true
You've been around me now for some time
But I never knew that you could be mine

*I don't know where we are heading
But you make me feel so secure
Where ever this is leading
Of one thing I'm sure*

This was meant to be and you're walking here along with me
What we feel is impossible to hide and you're staying by my side

I am falling I'm falling for you
This seems to be too good to be true
You've been around me for some time
And I never knew that you could be mine

*I don't know where we are heading
But you make me feel so secure
Where ever this is leading
Of one thing I'm sure*

This was meant to be and you're walking here along with me
What we feel is impossible to hide and you are staying by my side

I can't stop thinking about this and you're always on my mind
You're so much better than what I ever thought that I might find

And this was meant to be and you're walking here along with me
What we feel is impossible to hide and you are staying, you're staying by my side
I believe that this was meant to be and you're still walking here along with me
What we feel is impossible to hide and you are staying by my side

Time To Let Go

(Lyrics – Maria Bemark; Music – Jonas Ekestubbe/Maria Bemark)

The dark shadows are back
and won't leave me although I fight
The thought of us giving it up won't go
and I know I won't sleep anymore tonight
There was a time when I thought that it always would be me and you
Why am I still trying?
well I don't know how life is without you

Because,
This is all that I know
But it is time to let go
This is all that I know
But it is time to let go

Our luck has run out of time
My heart is breaking
But anyone who asks me how I am
Gets a smile and "I'm fine"
Don't know how to handle all the pain inside
I know I should let it out but it's so much more easy hide

Behind,
This that is all that I know
But it is time to let go
This is all that I know
But it is time to let go

You are part of my dearest memories
Turned my world upside down when you came along
But what I just found out is
That I've believed in this for to long

In this,
That is all that I know
But it is time to let go
This is all that I know
But it is time to let go

This is all that I know
But it is time to let go
This is all that I know
But it is time to let go

What I Expect of You

(Lyrics & music – Jonas Ekestubbe)

I've lost my imaginary
thoughts about your ...
I think you're scary
I've tried to look beside
the things about you
that I don't like
I ... don't think you
I ... don't believe you
I ... don't think you
have what I expect of you

I don't think that I'm in love with you
But I don't think you feel the same way to
I don't think that you're ever gonna change
So I don't think things will ever be the
Same ... don't think you
I ... don't believe you
I ... don't think you
have what I expect of you

Life has it's different sides I know
Love there's no different sides I'm sure
Life has it's different sides I know
Love there's no different sides I'm sure

I've lost my imaginary
thoughts about your ...
I think you're scary
I've tried to look beside
the things about you
that I don't like
I ... don't think you
I ... don't believe you
I ... don't think you
have what I expect of you

Life has it's different sides I know
Love there's no different sides I'm sure
Life has it's different sides I know
Love there's no different sides I'm sure

What You Do

(Lyrics & music – Jonas Ekestubbe)

What you do
What you say
What you want simply comes in your way
What you have
What you miss
What you need simply comes in a wish

*This feeling inside of me
Seems to be out of reach
So why don't you let me
Come closer to you*

What you see
What you find
What you search simply comes to your mind
What you touch
What you feel
What you felt simply comes if you heal

*This feeling inside of me
Seems to be out of reach
So why don't you let me
Come closer to you*

I don't know why but I'm falling in love
No I can't deny that I'm falling for you

*This feeling inside of me
Seems to be out of reach
So why don't you let me
Come closer to you*

I don't know why but I'm falling in love
No I can't deny that I'm falling for you
I don't know why but I'm falling in love
No I can't deny that I'm falling for you

What You Feel Deep Inside

(Lyrics & music – Jonas Ekestubbe)

Without feelings for a heart that's been broken
Without hearing the words that's been spoken
Without caring for the voice that keeps calling
Without seeing the tears that are falling

*Without healing the wounds that are open
Without feelings for the heart that's been broken*

Loving and caring
for a second heart beside your own
yeah sometimes it fills your soul
That feeling inside you
sometimes wanna make you scream and shout
to express what you feel deep inside

Without showing what I know is inside you
Without sharing the feelings that I do
Without thinking about things that has meaning
Without crying on the shoulder you're leaning

*Without healing the wounds that are open
Without feelings for the heart that's been broken*

Loving and caring
for a second heart beside your own
yeah sometimes it fills your soul
That feeling inside you
sometimes wanna make you scream and shout
to express what you feel deep inside

Loving and caring
for a second heart beside your own
yeah sometimes it fills your soul
That feeling inside you
sometimes wanna make you scream and shout
to express what you feel deep inside

Loving and caring
for a second heart beside your own
yeah sometimes it fills your soul
That feeling inside you
sometimes wanna make you scream and shout
to express what you feel deep inside

Where It Feels Like Home

(Lyrics & music – Jonas Ekestubbe)

Life in this hole
is getting a bit cold, you see
I've been waiting a lifetime
for the right time to come, I know
You've been drilling my brain
till I can feel no more pain, you know
That I'm feeling insane
Please tell me whatta hell is this game, that we play

Please take me there, where it feels like home
Please take me there, I wanna go home
Please take me there, where it feels like home
Please take me there, I wanna go home

I just can't believe this is true
Cause my heart doesn't care for someone like you
No I just can't believe this is true
Cause my heart doesn't care for someone like you
Someone like you

A sense of distraction
I can feel by your touch, and I feel
There's no hesitation
there's no need to hide, no more
Longing for a place
that I can call my own, you see
I love the open space
where I can feel as I'm free, and I want

Please take me there, where it feels like home
Please take me there, I wanna go home
Please take me there, where it feels like home
Please take me there, I wanna go home

I just can't believe this is true
Cause my heart doesn't care for someone like you
No I just can't believe this is true
Cause my heart doesn't care for someone like you
Someone like you

Please take me there, where it feels like home
Please take me there, I wanna go home
Please take me there, where it feels like home
Please take me there, I wanna go home

Wide Open Eyes

(Lyrics & music – Jonas Ekestubbe)

Smile to prove me you're fine
Laugh to glass of red wine
And touch me as if your sign
Is to show me that you will be mine
My approaching gentleness
I'll give you more than you give me less
There's something I have to confess
It's your life I hope that you let me bless

Please won't let, come close

Sometimes, I feel like my wide open eyes
would be better of enclosed to escape this visible pain

I'm trying to stand all this pain
While you're trying to keep all this fame
You think there is something to gain
But somehow your life's still the same
My distinguished gentleness
I'll give you more but still you give me less
It's like I'm being obsessed
But it's your life I hope that you let me bless

Please won't let, come close

Sometimes, I feel like my wide open eyes
would be better of enclosed to escape this visible pain

Touch me let me come close
Won't you feel me feel your heart expose
The greatest wine that you've ever had
Is the wine that you'll find if you touch my heart

Sometimes, I feel like my wide open eyes
would be better of enclosed to escape this visible pain
Sometimes, I feel like my wide open eyes
would be better of enclosed to escape this visible pain

Your Life in My Hands

(Lyrics & music – Jonas Ekestubbe)

Feel your mind exposed
Exploring what is unknown
Nake your all thats been closed
Showing of what is known
All the confidence inside you
enclosing your eyes
to see what you've missing all this time
There's no beauty left inside you
so please open your eyes
and take heart of this great body of mine

*As if you'd put your life in my hands
As if your heart caresses my mind*

Freeing your minds disease
The love of your heart increase
Leaving this life obsessed
Entering what is yet blessed
All the confidence inside you
enclosing your eyes
to see what you've missing all this time
There's no beauty left inside you
so please open your eyes
and take heart of this great body of mine

*As if you'd put your life in my hands
As if your heart caresses my mind*

I feel so affended
There must be stones in your heart
I feel so abanded
By the things you said from the start
